DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The recitation of a single actuator to both power close a closure and to drive a rotary power cable as set forth in claims 1-15 is not shown or fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. This application is in condition for allowance except for the following formal matters:

The drawings and the specification are objected to for the following reasons:

On page 5, line 2, it is thought that "full" should be changed to --fully--.

Reference numeral 35 is used in the specification for the bidirectional motion of the rotary cable and a transmission coupling. See page 4 and Figures 2 and 5.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
